

Well, here we are almost back to normal (or as normal as I'm ever going to be!) What an amazing job we have done as a country to get this sorted, and I know there have been tough times for some, and tough times to come, but what an achievement. Good old little NZ once again shows the world how it's done. Still some ways to go with the borders etc, but awesome job people. I know a lot of you have enjoyed being able to go and catch up with extended family now, and that really is a plus.

It is great to see everyone getting back out here and enjoying themselves, and this is reflected in the numbers on some of the usual playing days.(74 at HelloWorld, 45 cards printed on Wednesday, and 92 over the day on Thursday). No more elbow bumping, you've got rakes back in the bunkers, and although some complained, you can get your own glasses from the fridge!

The programme schedule is pretty much back to what it says in the book, so keep a check on that, and the info on the tables to keep up to date with what is coming up.

First on this list is the **TOWN AND COUNTRY.**

This tournament has a long history in the Club, and was originally set up by farmers to support the Club.

Apart from the actual golf, there is an auction on the day with some seriously good items up for grabs.

A couple of examples of these are the four 'named carparks' out the front of the building. (There are some members who always want these, so they could do with some competition), 2 x lambs prepared for the freezer, 2 nights accommodation at a Lake Rotoma bach, the raffle is a whole pig in a barrow (not actually still looking like a pig, cut up for the freezer).

The auction is a lively affair and worth being here just for that.

It is being played on Sunday June 21, tee off is 11.00am. Entry is \$35 per person, and you need to check in with me in the office for entry.

During level 2 we had the pay-wave re-installed on our eftpos, but this is being removed from 1 July.

There are some fence repairs being done at the moment, and if any one has some high tensile wire lying around they don't need, it would be much appreciated. The stuff we have is so old it can't be joined anymore. Cheers.

Going to wrap this up as there is a small function here this afternoon and I need to get set-up. Remember, any questions or queries you have, let me know and hopefully I can sort them out or point you in the right direction for your answers.

Have a great weekend folks, take care and I'll see you next week.
